

1
Flu
Vaccine

2
COVID-19
Booster

Two jabs please!

Boost your health this winter with a
Flu Vaccine and COVID-19 Booster.

The Flu vax can be given on the same day as any
COVID-19 vaccine, so ask for ***two jabs please!***

Vaccines are available at General Practices,
Clinics and Pharmacies.

1 FLU

Everyone six months and older is recommended to get a flu vaccine each year.

While it can be a mild disease for some, it can also cause very serious illness in otherwise healthy people.

2 COVID-19

A 2023 COVID-19 booster dose is now available to everyone aged 18 and over.

A booster is particularly recommended for people at higher risk of severe illness, including people 65 years or older and those 18 years and older with medical conditions, disability or complex health needs.

You are now eligible for the 2023 booster, if it has been 6 months or longer since your last COVID-19 vaccination or infection.
