NURSES AND DIABETES CARE

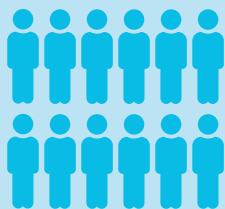

Diabetes is the fastest growing chronic condition in Australia, and nurses play a pivotal role in supporting the person living with diabetes.

Who is this course for?

- Nurses & Enrolled Nurses

Our eLearning course can be completed anywhere, anytime allowing you to conveniently learn at your own pace.

1.2 million

people in Australia are diagnosed with diabetes

7,750

people die from diabetes complications in Australia each year

COURSE OVERVIEW

Diabetes in Practice for Nurses will provide you with increased knowledge and understanding of diabetes, enabling you to have meaningful conversations with people living with diabetes using simple, clear language.

By completing this course, you will:

Update your knowledge on diabetes management and care

Improve your ability to support the person living with diabetes and have a more helpful conversation using health literacy principles

Know how to ask the right questions, and when to refer to other health professionals for more individualised advice

Have the tools and resources to implement what you've learnt in your workplace, improving health outcomes for people living with diabetes
