

CLONCURRY GENETICS MUSTER

Photo: Cowan Downs Station by Cheri Stanger.

JUST A YEAR AGO **HUNDREDS OF THOUSANDS** OF STOCK WERE LOST. **NORTH WEST QUEENSLAND** IS RECOVERING AND MOVING ON.

Integral to recovery is herd rebuilding. The drive to lift genetic improvement in the northern beef herd means producers have the opportunity to develop superior herds and there is a real demand for education on herd improvement.

31 MARCH **1 APRIL**
TUESDAY -----> WEDNESDAY

 **ONLINE BOOKING**
